

# Yash Shukla

+91 9650802602 | [yshukla2775@gmail.com](mailto:yshukla2775@gmail.com) | [LinkedIn](#) | [GitHub](#)

## EDUCATION

**Shyam Lal College, University of Delhi**

*Bachelor of Commerce*

2020 – 2024

*CGPA: 7.2*

**Venkateshwar International School, Delhi**

*AISSCE/CBSE (Class XII)*

2019 – 2020

*Score: 82%*

## EXPERIENCE

**Full Stack Developer**

*Writecream*

Feb 2025 – Present

*Dwarka, New Delhi*

- Built a **PDF Encryption and Decryption Tool** enabling users to securely upload PDFs, apply or remove passwords, and download processed files using **pdf-lib** and **Multer**.
- Implemented custom text formatting features to let users style and edit content directly in the web interface.
- Designed secure REST APIs for content management, user authentication (JWT), and image uploads.
- Engineered workflows to manage dynamic content: hero banners, galleries, feature sections, and blogs.

**Web Developer**

*Digital Guruji*

July 2024 – Jan 2025

*Netaji Subhash Place, Delhi*

- Led full-stack development for the client-facing website, increasing client acquisition by 28%.
- Developed engaging UI components with Framer Motion and Material UI to enhance user experience.
- Built a scalable Firebase Firestore system for Careers page data, improving real-time updates used by 15+ HR staff.
- Integrated Firebase Storage for seamless resume uploads and file handling.

## TECHNICAL SKILLS

**Languages:** Java, Python

**Web Development:** HTML, CSS, JavaScript, React.js, Tailwind CSS, Node.js, Express.js, MongoDB, REST APIs, Socket.IO, JWT Authentication

**Core IT Skills:** Git, GitHub, Object-Oriented Programming (OOP)

## PROJECTS

**JobSparx: Job Recommendation Platform** | Website – Frontend – Backend

- Developed a job portal enabling resume uploads and direct applications between job seekers and employers.
- Optimized job search/filter features, reducing average search time by 40%.
- Built a real-time job alert system using WebSockets for instant notifications on new job listings.

**CareCritic: Healthcare Review System** | Frontend – Backend

- Created a web platform for users to review and rate hospitals and doctors.
- Implemented JWT-based authentication, role-based access, and spam filtering.
- Integrated Socket.IO for real-time updates, enabling instant appointment change notifications to patients.
